

change4life sports clubs challenge

During this amazing 2012 summer of sport we will be asking teams of young leaders and volunteers to take the change4life sports club challenge in secondary schools.

This will involve the planning and staging of a secondary celebration event using a specially designed interactive online tool. Bringing to life the achievements of their change4life sports club and the young people in them these events will inspire and motivate others to get involved.

There are videos, downloads, templates and ideas to assist them in creating an exciting event that shouts about their success and an opportunity to win prizes for their school by telling us about what they have done.

The resources and web application will be available to you after the Easter holidays so get your thinking caps on as to how these events can be used to celebrate your club and provide your change4life sports club leaders and volunteers with an enterprising challenge.

Look out for the bright yellow wristbands that will be coming to your school soon!!

Is your team up for the change4life sports clubs challenge?
