

"Fair Play"

Hardbat English Association of Table Tennis

HEATT (Hardbat English Association of Table Tennis) was primarily set up to promote table tennis in its basic form, using a standard pimped rubber table tennis bat.

Our sole aim is to make this basic form of table tennis a credible alternative to the modern game, firstly in the UK and eventually in Europe and the rest of the world.

All of us involved at HEATT will work tirelessly to achieve this without any reservations. Our "Fair Play" concept is now being adopted by many local leagues running hardbat events.

For those who are unclear what this means, at present our basic "Fair Play" policy is this:-

1. All players **MUST** use the identical playing equipment provided (without exception).
2. Players **MUST** exchange bats when changing ends.
3. The bats **MUST** stay on the table they were issued to for the duration of the tournament.

The next stage is to standardise the playing equipment used in all Hardbat "Fair Play" tournaments. Our "Fair Play" rubber has been specially developed for this sole reason, and is the only specific ittf approved hardbat rubber on the market anywhere in the world today.
