

Examples of tables used in previous years

Rollaway, Static and Permanent Tables

General Info:

- All tables are full size ping pong tables
- A full size table is approx 3m by 1.5m (actual dimensions are 274cm long by 152.5cm wide and 76cm high)
- Allow an area of approx 25ft by 15ft (8m x 4m) for the table...this allows for safe play, spectators, or larger group games like 'round the table'
- Our tables will be adapted to hold bats (up to 4) and balls (approx 6) at the table itself
- All our tables will be outdoor weatherproof tables, but can of course be used indoors as well
- Our tables will have nets already installed onto the tables
- Our tables are all wheelchair friendly
- Weights will differ between designs

Rollaway Tables – Example of Table used in Previous Years

Cornilleau Sport 500 Weatherproof Rollaway Table Tennis Table

- Perfect for indoor spaces or sites that would need to lock tables away at night
- Easily manoeuvrable by hosts/minders...and come with safety locks and wheel breaks for safe play

Static Tables - Example of Table used in Previous Years

Cornilleau Proline 510 Weatherproof Static Table Tennis Table

- These tables will be robust and sturdy
- The special Ping! version of this table has bat and ball storage built into the table sides
- Perfect for public squares and sites where table can be left outside 24/7, but must be secured into place to avoid being blown in strong winds
- The curved legs of this table make it extremely attractive as well as being an extremely strong and
- Playing surface: 7mm Weatherproof MAT Top resin laminate, resistant to bat blows
- Frames: 60mm corrosion/scratch resistant steel
- Net and Post Set: Choice of fixed net in high resistance steel or standard net and posts

Permanent Tables

Cornilleau Park Permanent Outdoor Weatherproof Table Tennis Table

Built to last, this is an ultra-resistant table designed for use in open-access playgrounds. It has an excellent playing performance and is completely weatherproof. It is also shock resistant, fire resistant, graffiti resistant and can withstand a weight of up to 1600 kg on the playing surface.

- Playing surface: 9mm Weatherproof MAT Top resin laminate, resistant to bat blows
- Frames: 80mm corrosion/scratch resistant steel
- Net and Post Set: Fixed net in high resistance steel
- Corner protection pads
- Wheelchair friendly

NB: Again, this table must be secured into place.
