TT Biography

For those of you that don't know me I have been involved for many years as a player, coach, tutor, club and county officer and as someone that believes in the value of sport and the importance to support and nurture.

I've played in British League and many local leagues in Middlesex, Hertfordshire and Essex and took the decision back in 2003 when I first started tutoring that I could best serve table tennis by motivating people to coach and thereby widen the benefit and numbers playing. I've delivered training, assessed and mentored hundreds of coaches on their pathway to qualifying and beyond.

In more recent times I've become very involved first in National Council, helping form strategies towards improving its workings and then within committees tasked to deliver the root and branch governance review followed by developing pathways and processes needed from its outputs.

My business background is in operational logistics and commercial including running my own business designing and supplying from the Far East to distributors and major retail.

I believe my experience and ongoing interactions within our sport will compliment the knowledge within the board so that member interests are properly represented.

I'd welcome the opportunity to serve our sport as an elected member of the board.
